

Explosive

October 2007

MARK NANCE/Sun-Gazette

Members of Tripwire Operations Group of Chambersburg detonate "a wall of fire," above, from gallon jugs half-filled with gasoline during an explosives demonstration near the Second To None Sports Complex Wednesday. Students from ITT of Mechanicsburg and members of police canine units inspect a car which was detonated with two pound of C-4 following the demonstration. The demonstration was part of a police K-9 dog explosives course by Ideal Police Canine of Pennsdale and Tripwire Operations for police and security companies in the Northeast and criminal justice students from ITT. The course allowed officers and dogs to train around large amounts of explosives and to see and feel the effects of large blasts. View additional photos at cu.sungazette.com.
